

Our Responsible Sourcing Commitment

Suppliers are indispensable contributors to the success of TKE and are treated as partners.

- We regard our suppliers as part of our business model and share the respective chances and risks with them.
- We are in constant search of best-in-class suppliers.
- We set ambitious targets and expect our suppliers to live up to their commitments.
- We stick to our own promises.
- We treat our suppliers with honesty and respect.
- We create win-win relationships.

We create reliable business relationships with strategic suppliers and strive for a minimum environmental impact.

- We engage with strategic suppliers in long-term relationships and work towards aligned business roadmaps.
- We challenge them to constantly work on the improvement of their competitiveness, productivity, and innovation.
- We monitor environmental impacts in our supply chain and engage with our suppliers in emission, consumption, or waste reduction targets.

We collaborate with our suppliers based on clear business ethics as laid down in the TK Elevator Supplier Code of Conduct.

- We want to run a clean business.
- We expect our suppliers to honor labor rights, to ensure safety at work, to protect the environment, and to adhere to clear business ethics and all applicable laws.
- We engage only with suppliers based on the rules set forth in our Supplier Code of Conduct.
- We monitor our suppliers against our ethical foundation and follow up violations.
