

hey you! yes you!

Did you know, that the last Friday in July is 'Talk in an Elevator Day'?
Of course you did.

But some people aren't aware of this day. In fact, some people don't ever talk in elevators. According to our research, 66% of people never talk in elevators.

Around 7 billion elevator journeys happen every day. If each journey lasts an average of 30 seconds, those 66% of people spend 38,499,999 hours in silence. Each day. That's a lot of wasted time.

To help change that, we've developed some handy conversation starters for you to use on your journey between floors.
