**Modernization  
completed  
2021**

### Modernized products

**3** Elevators with **AGILE** Destination controls

Service from:  
**2021**

*TK Elevators is proud to have provided cutting-edge lift solutions for the Turning Torso in Malmö, Sweden – a remarkable 57-floor, 190-meter-tall landmark. As Europe's second tallest residential building and the first of its kind to twist, this iconic structure stands as a testament to innovative engineering and design.*

**Architect: Santiago Calatrava**
