National Medal of Honor Museum

Entertainment

museum spans
130,000 square
feet

Installation
completed
2025

Installed products

2 Elevators connected to **MAX**

Service from:
2025

TK Elevator's custom elevators with 360° views power the National Medal of Honor Museum. "We've had about 50 subcontractors on the job with over 3000 workers onsite," says Becky Burleson, Vice President and Client Executive for Linbeck Group. "TKE did not just build the elevator – they engineered and designed it." Burleson says museum projects are always challenging but says it's been a strong partnership working with TKE.
