Service from: 2009

TKE played a key role in the development of Shinsegae Centum City, the world's largest shopping complex at its opening. TKE provided and installed the vertical transportation solutions, including 76 escalators, 8 moving walks, and 39 elevators. Our reliable, high-capacity systems ensure smooth, safe, and efficient passenger flow throughout the department store and shopping mall, enhancing the customer experience at this landmark destination.
