Enshi Grand Canyon

Transportation

Natural
scenic spot

Installation
completed 2016

Installed products

- 2 Elevators
- 4 Escalators

Service from:
2016

This famous scenic spot features one of the longest escalators in the world, constructed in 2016. The escalator spans a total length of 688 meters, with 288 meters supplied by TK Elevator. Additionally, two sightseeing elevators from TK Elevator were installed, allowing visitors to ascend from a depth of 130 meters to the ground in just 50 seconds. This project showcases our exceptional engineering and installation capabilities.
