Fürst & Friedrich

Office

Merging history
with modern
workspaces

Installation
completed 2019

Installed products

6 Elevators

Service from:
2019

TK Elevator successfully installed six elevators in the Fürst & Friedrich office building, which blends historic and modern architecture. The elevators, designed to match the building's style, feature glass shafts with underfloor lighting, enhancing the contemporary look. This project highlights TK Elevator's expertise in integrating modern technology with architectural elegance.
