2015

TK Elevator played a key role in the success of Incity Tower, Lyon's tallest and France's third-highest skyscraper at 202m. With 39 floors and BREEAM 4-star certification, this 40,000 m² tower is a shining example of sustainable high-rise design, where TK's elevators deliver smooth, efficient mobility throughout.

Architect: AIA Atelier de la Rize, Valode & Pristre
