New **MAX** Smart Maintenance contract for **350+** TKE and third-party elevators, escalators and moving walks

TKE's innovative digital solutions played a pivotal role in securing this significant multi-brand service contract. By leveraging smart maintenance technologies, TKE is enhancing equipment performance and reliability, ensuring seamless and efficient movement for people. Our Universal Service approach makes life easier for busy airports professionals, by ensuring improved operating efficiency and passenger safety at any scale – elevating service from reactive repairs to proactive cover.
