powered by International Technical Services (ITS)

Service from:  
2022

*Noida Metro is India's 11th metro system and the 2nd in Uttar Pradesh after Lucknow. It is the ninth longest network in the country. We secured the service contract three years ago and have now been awarded the contract again. Our strong partnership and consistent delivery of high-quality service-built trust and confidence, leading the customer to choose us once more.*
