*TK Elevator equipped One Tower in Balneário Camboriú, one of Latin America's tallest residential buildings, with three high-speed elevators running at 5 m/s. Using cutting-edge Active Roller Guides—similar to those installed in the One World Trade Center—these elevators enhance passenger comfort by minimizing cabin oscillations. Standing at 280 meters, One Tower is a true landmark in the "Brazilian Dubai," and TK Elevator has played a key role in elevating its status as a premier residential skyscraper.*
