*With its striking architecture and unique delta-shaped floor plan, TRIANON is an icon of the Frankfurt skyline. Completed in 1993, this 186-meter-tall office tower is Germany's sixth tallest building. It features 15 TKE elevators with travel heights between 82 and 170 meters. In 2014, TK Elevator was also awarded the modernization contract. The innovative concept set new standards in the high-rise office segment, enhancing transport capacity and user comfort with advanced destination control and modern cabin interiors.*
