7239 m² of Office space
across 7 Floors

Modernization
completed
2024

Modernized products

3 Elevators

Service from:
2024

The Wolkenbügel in Düsseldorf is a smart building redesigned for a greener future. TKE modernized three elevators, including a synergy 200 duo, with energy-efficient technology, helping reduce the building's carbon footprint by 50%. Sleek glass doors combine style with performance. Its green façade - the largest in Medienhafen - cleans the air and enhances the building's iconic look. TKE is proud to support this forward-thinking project and contribute to sustainable urban development.
