

Occupational Safety & Health Policy

At TK Elevator, we focus on people.

We are dedicated to ensuring that everyone can perform their work safely and return home each and every day.

We commit to:

- providing safe and healthy working conditions so that physical and psychological stresses, accidents and work-related illnesses can be avoided.
- promoting a culture in which we all take care of each other.
- empowering our team members to work safely through our words and actions.
- actively engaging our global workforce and workers' representatives to contribute to and participate in our Occupational Safety & Health (OSH) program.
- supporting our contractors and sub-contractors to perform their work safely.
- fostering a culture of open communication in the workplace where everyone feels empowered to speak up.
- providing consistent work standards and tools to identify and manage our OSH risks.
- complying with applicable OSH laws and regulations in the jurisdictions in which we conduct our operations.
- giving authority and support to any member of our team to stop unsafe work or behaviors.
- promoting a culture of continuous improvement regarding all elements of our management system.
