## HOW IT WORKS!

### HOW TO USE AN ELEVATOR...

1 Locate the elevator "lobby" in the building. The lobby is the location where you will board the elevator. Enter the direction you wish to travel (up or down).

2 When the elevator arrives and the doors open, move into the cab. The "cab" is what people ride in from floor to floor.

Look for the star to always take you back to the ground floor!

3 Enter the floor that you wish to travel to (2, 3, Penthouse, Parking). The door will close. Enjoy the ride.

### DID YOU KNOW...

You should allow passengers that are exiting the elevator to go **FIRST** before you enter the elevator. This allows room for more passengers to fit inside the cab.

## FUN FACT

ELEVATORS ARE STATISTICALLY THE **SAFEST** WAY TO TRAVEL. THEY'RE EVEN SAFER THAN **WALKING!**
